

NOW AVAILABLE

Mycotoxin Body + Home

MycotoX Profile® + The DUST Test

See the full picture of mycotoxin exposure.

The Mycotoxin Body + Home panel combines human biomarker insights with home mold detection to deliver a more complete understanding of exposure.

ASSESS

Evaluate mycotoxins in both the body and home environment for a more holistic view of patient exposure.

TRUSTED METHODOLOGY

Powered in partnership with Mosaic Diagnostics and The DUST Test using advanced biological and environmental analysis methods.

TAKE ACTION

Clear, actionable reports provide easy-to-understand information and next steps for patients to identify and reduce exposure.

WHAT'S INCLUDED

Measures mycotoxin metabolites in the body.

The **DUST** Test
Home Mold Test

Identifies mold species from a dust sample collected from a patient's home.
